

## CONTENTS

	Page
Computerized axial tomography in aphasiology. J. Rosenbek, D. Shimon . . .	1
Nuclear magnetic resonance (NMR): Background and potential impact on the practice of speech and language pathology. J.R. Duffy . . . . .	7
Positron emission tomography. W.R. Hanson, E.J. Metter, W.H. Riege, D.E. Kuhl, and M.E. Phelps . . . . .	14
Cerebral blood flow. J. Horner, R. Chacko . . . . .	24
Using cortical evoked potentials in aphasiology. M. Selinger . . . . .	34
Classifying the aphasias: A comparison of the Boston Diagnostic Aphasia Examination and the Western Aphasia Battery. R.T. Wertz, J.L. Deal, and A.J. Robinson . . . . .	40
Classification of aphasia: WAB type versus clinical impression. C.S. Swindell, A.L. Holland, D. Fromm . . . . .	48
Reliability of rating spontaneous speech in the Western Aphasia Battery: Implications for classification. E.H. Trupe . . . . .	55
Commonality and differences in aphasia: Evidence from BDAE and PICA. E.J. Metter, W.H. Riege, W.R. Hanson, D.E. Kuhl, M.E. Phelps . . .	70
Word fluency and aphasia: Some linguistic and not-so-linguistic considerations. M. Collins, M.R. McNeil, J.C. Rosenbek . . . . .	78
Aphasia associated with intracerebral neoplasms. D.J. Armstrong, J. Horner, K.H. Fedor, E.W. Massey . . . . .	85
Coverbal behavior and perceptions of organicity. L.A.C. Golper, M.E. Gordon, M.T. Rau . . . . .	94
Strategies for obtaining information from aphasic persons. C.R. Flowers, E.R. Peizer . . . . .	106
Appraisal of communicative competence in head injured adults. S.B. Milton, C.A. Prutting, G. M. Binder . . . . .	114
Can we learn more from word fluency measures with aphasic, right brain injured, and closed head trauma patients? B.L.B. Adamovich, J.A. Henderson . . . . .	124
Across setting generalization of social conventions in aphasia: An experimental analysis of "loose training" C. Thompson, M. Byrne . . . .	132
The use of context-dependent pictures in aphasia rehabilitation. P. Myers, C.W. Linebaugh . . . . .	145
An intelligent computer-based spelling task for chronic aphasic patients. R.C. Katz, V.T. Nagy . . . . .	159

	Page
Experimental analysis of a treatment program for alexia without agraphia. N.N. Simmons . . . . .	166
The effect of a token training program on auditory comprehension in a case of Wernicke's aphasia. L.H. Burger, R.T. Wertz . . . . .	173
Extended comprehension training reconsidered. R.C. Marshall, S. I. Neuburger . . . . .	181
The effectiveness of comprehension-enhancing strategies employed by spouses of aphasic patients. C.W. Linebaugh, C.P. Margulies, E.L. Mackisack-Morin . . . . .	188
Surface markers as facilitators of aphasic subjects' responses to WH- questions. A.V. Davis, A.A. VanDemark . . . . .	198
Factors influencing paragraph comprehension by subjects with left or right hemisphere involvement. C.A. Tompkins, C.A. Mateer . . . . .	202
Cohesion in aphasic language. M.F. Piehler, A.L. Holland . . . . .	208
Cohesion in narratives of aphasic adults. M.L. Lemme, N.L. Hedberg, D.E. Bottenberg . . . . .	215
Auditory comprehension in aphasia: Type vs. severity. B.M. Klor, A.G. Mlcoch . . . . .	223
Response time patterns for word production and word selection anomias. R.C. Marshall, S.I. Neuburger, L.A. Golper, D.S. Phillips . . . . .	227
Differences between normals and left brain damaged (aphasic) subjects on a nonverbal problem solving task. T.E. Prescott, F.L. Loverso, M. Selinger . . . . .	235
An assessment of internal speech in phonologically impaired brain-damaged adults with minimal aphasia. C. Shulak-Rome, J.G. Lyon . . . . .	241
Critical factors associated with the success or failure of community stroke clubs. S.B. Sanders, E.I. Hamby, M. Nelson . . . . .	250
Long-term survival characteristics in stroke induced aphasia. P.J. Doyle, A.L. Holland . . . . .	262

Abstracts

Depression following left hemisphere stroke. D. Fromm, A.L. Holland, C.S. Swindell . . . . .	268
The effect of gestural cues on comprehension of spoken messages by aphasic adults. C.A. Venus, G.J. Canter . . . . .	271
Is there fluency after aphasia? J.M. Pettit, L. Specyal . . . . .	274

<u>Abstracts</u> (cont.)	Page
Some comparisons between auditory and reading comprehension in aphasic adults. K.H. Odell, M.R. McNeil, M.J. Collins, J.C. Rosenbek	276
Expressive language quantitatively compared for aphasic and normal adults. C.M. Shewan . . . . .	277
Sweet sunshine and warm hugs: Aphasic subjects' comprehension of metaphors in context. M. Newhoff, A.P. Salvatore, J. Parks . . .	278
Construct validity of procedures used for severity ratings of apraxia of speech. A.G. Mlcoch, P.A. Square, W.A. Beach . . . . .	279
Verbal response time and intersyllable interval in the imitative speech of non-brain-injured, aphasic, and apraxic adults. P.A. Mercaitis, J.R. Duffy . . . . .	280
Perception of verbal cues after right brain damage. K. Lundgren, K.L. Moya, L.I. Benowitz . . . . .	282
