|---|-----|
| 11. Lexical-Semantic Abilities of Individuals with Multiple Sclerosis and Aphasia
<i>H. Daniel Blackwood, Leonard L. LaPointe, Pat Holtzapple, Karen Pohlman, and Lisa Fletcher Graham</i> | 121 |
| 12. Anomia, Dysfluency, and Chronic Alcoholism: Prognostic Considerations
<i>Mary Boyle</i> | 129 |
| 13. Response to Amphetamine to Facilitate Recovery from Aphasia Subsequent to Stroke
<i>Delaina Walker-Batson, Michael D. Devous, Sr., Sandra S. Curtis, D. Hal Unwin, and Ralph G. Greenlee</i> | 137 |
| 14. The Effects of Bromocriptine on Speech and Language Function in a Man with Transcortical Motor Aphasia
<i>Donald L. MacLennan, Linda E. Nicholas, Gerald K. Morley, and Robert H. Brookshire</i> | 145 |
| 15. The Effects on Language of Ventral Lateral Thalamotomy for Treatment of Movement Disorders
<i>Mary V. Andrianopoulos, Joseph R. Duffy, and Patrick J. Kelly</i> | 157 |
| 16. Inference Failure: The Underlying Impairment in Right-Hemisphere Communication Disorders
<i>Penelope S. Myers</i> | 167 |
| 17. Preferential Representation of Personal Names in the Right Hemisphere
<i>Diana Van Lancker, Karen Klein, Wayne Hanson, Andrew Lanto, and E. Jeffrey Metter</i> | 181 |
| 18. Category-Specific Naming and Comprehension Deficits: Theoretical and Clinical Implications
<i>Argye Elizabeth Hillis and Alfonso Caramazza</i> | 191 |
| 19. The Effect of Context on Aphasic Adults' Category Structure
<i>Monica S. Hough and Sherri Jordan</i> | 201 |
| 20. Confrontation Naming Performance in Dementia and Aphasia
<i>Toshiko S. Watamori, Yoko Fukusako, Hisako Monoi, and Sumiko Sasanuma</i> | 211 |
| 21. An Alternating Treatments Comparison of Loose Training and a Convergent Treatment Strategy
<i>Kevin P. Kearns and Katherine Yedor</i> | 223 |

Contents	vii
22. Effects of Phonologically Based Treatment on Aphasic Naming Deficits: A Model-Driven Approach <i>Cynthia K. Thompson, Anastasia Raymer, and Henriette le Grand</i>	239
23. The Effects of Semantic and Phonemic Prestimulation Cues on Picture Naming in Aphasia <i>Mark A. Stimley and J. Douglas Noll</i>	263
24. The Effects of a Time-Delay Procedure on Comprehension of Verb-Noun Commands in Severe Aphasia <i>Karen S. Oleyar, Patrick J. Doyle, Kristen Keefe, and Howard Goldstein</i>	271
25. Effects of Verbal plus Gestural Treatment in a Patient with Aphasia and Severe Apraxia of Speech <i>Anastasia M. Raymer and Cynthia K. Thompson</i>	285
26. A Long-Term Follow-Up of Aphasic Patients After Intensive Treatment <i>James Aten, Robert T. Wertz, Marianne Simpson, Deanie Vogel, and Darlene Graner</i>	299
27. Analysis of the Temporal Relationship Between Pitch Control and Articulatory Movements in the Realization of Japanese Word Accent by a Patient with Apraxia of Speech <i>Shinobu Masaki, Itaru F. Tatsumi, and Sumiko Sasanuma</i>	307
28. Auditory Processing of Sequential Pitch and Timing Changes Following Frontal Opercular Damage <i>Karen A. Colson, Donald A. Robin, and Erich S. Luschei</i>	317
29. All Discourse Tasks Are Not Created Equal <i>Barbara B. Shadden, Rhonda B. Burnette, Beverly R. Eikenberry, and Ro DiBrezzo</i>	327
30. Conversational Discourse of Aphasic and Normal Adults: An Analysis of Communicative Functions <i>Julie L. Wambaugh, Cynthia K. Thompson, Patrick J. Doyle, and Stephen Camarata</i>	343
