

THE CLINICAL APHASIOLOGY CONFERENCE

The Clinical Aphasiology Conference is an annual conference devoted to clinical issues relevant to diagnosis, evaluation, and treatment of brain-injured persons with linguistic impairment. Attendance at the conference is by invitation, and is based upon proposed presentations submitted by potential participants. Proposals submitted are read without knowledge of authorship by four readers who constitute the program committee. Readers rank-order and rate proposed presentations in terms of their scientific and clinical merit, relevance, and their potential for generating useful discussion. Papers presented at the conference are eligible for inclusion in the Conference Proceedings.
