

THE CLINICAL APHASIOLOGY CONFERENCE

The Clinical Aphasiology Conference is an annual conference devoted to clinical issues relevant to diagnosis, evaluation, and treatment of brain-injured persons with impaired communication. Attendance at the conference is by invitation. Invitations are based upon summaries of presentations submitted by potential participants for consideration by a program committee. Summaries are read without knowledge of authorship by the committee, who rank order and rate proposed presentations in terms of scientific and clinical merit, relevance, and their potential for generating useful discussions. Papers presented at the conference are eligible for inclusion in that year's volume of Clinical Aphasiology.

1986 Conference Committee

Chairperson: Joseph R. Duffy

Program Committee

Malcolm R. McNeil, Chair
Wayne R. Hanson
Elizabeth Hillis Trupe
Kevin Kearns
Ann A. Van Demark

Local Arrangements

Thomas E. Prescott, Chair
Donna Bottenberg
Russell Davis
Karlene Fuller
Janet Gruber
Fran Lowry-Romero
Carolyn Mead
Jean Schwartz
Marilyn Selinger

Treasurer: Margaret L. Lemme
