CONTENTS

Preface ix

Contributing Authors xi

I. Microcomputer Technology in Aphasia Rehabilitation
   Matreshka in Aphasiology: Less Is More 1
      Robert T. Wertz
   Microaphasiology and the Computerized Clinician 7
      Richard C. Katz and Robert T. Wertz

II. Analyzing and Interpreting Aphasia Research
   Analysis of Variance in Clinical Aphasiology 19
      Robert H. Brookshire
   Using and Interpreting Linear Regression and Correlation 35
      Analyses: Some Cautions and Considerations
      Connie A. Tompkins
   Path Analysis 47
      Joseph R. Duffy

III. Measurement of Functional Outcome
   Functional Outcome: An Introduction 59
      Reg L. Warren
   Functional Outcome: Methodological Considerations 67
      Kevin P. Kearns
   Functional Outcome: Reimbursement Issues 73
      Cynthia R. Busch

IV. Brain Damage and Discourse Production
   A System for Scoring Main Concepts in the Discourse of 87
   Non-brain-damaged and Aphasic Speakers
      Linda E. Nicholas and Robert H. Brookshire
   Word Choice in the Connected Speech of Aphasic and Non-
   brain-damaged Speakers 101
      Robert H. Brookshire and Linda E. Nicholas
   Connected Speech Characteristics of Right-hemisphere-
   damaged Adults: A Re-examination 113
      Connie A. Tompkins, Richard Boada, Kathrine McGarry,
      Jennifer Jones, Angela E. Rahn, and Susan Ranier
Contents

Informational Content in the Discourse of Patients with Probable Alzheimer's Disease and Patients with Right Brain Damage

Leora R. Cherney and Gerald J. Canter

123

V. Right Hemisphere Damage and Inference Deficits
Right-hemisphere-damaged Subjects' Ability to Use Context in Inferencing

Mary H. Purdy, Steven Belanger, and Betty Z. Liles

135

Right Brain Damage and Inference Revision Revisited

Cynthia G. R. Bloise and Connie A. Tompkins

145

Right- and Left-brain-damaged Subject Performance on a Test of Reading Comprehension: The Nelson Reading Test Revisited

Marie T. Rau, Ute Kongsbak, Mary Gordon, and Donna J. Graville

157

VI. Traumatic Brain Injury and Communication Impairments
Lexical Pitch as a Measure of Word Choice in Narratives of Traumatically Brain Injured and Control Subjects

Kathryn M. Yorkston, Jane Zeches, Lynn Farrier, and Jay Lomoto

165

Exemplar Verification of Goal-derived Categories with Closed-head-injured Adults

Monica S. Hough, Marla DiFilippo, Robert S. Pierce, and Mary Jon May

173

Conversational Patterns of Aphasic, Closed-head-injured, and Normal Speakers

Carl A. Coelho, Betty Z. Liles, Robert J. Duffy, and Janine V. Clarkson

183

VII. Issues in Aphasia Diagnosis, Prognosis, and Treatment
The Use of Signal Detection Theory to Evaluate Aphasia Diagnostic Accuracy and Clinician Bias

Donald A. Robin and Malcolm R. McNeil

193

PICA Intrasubtest Variability and Prognosis for Improvement in Aphasia

Robert T. Wertz, Nina F. Dronkers, and Jennifer L. Hume

207

Measurements Predictive of Generalization of Response Elaboration Training

Katherine E. Yedor, Caryn P. Conlon, and Kevin P. Kearns

213

Time Post Onset and Contextualized Sentence Comprehension in Nonfluent Aphasia

Michael P. Cannito, Debbie Vogel, Robert S. Pierce, and Monica S. Hough

225
Resolution of Ambiguous Emotional Messages: Age, Gender, and Brain Lesion Effects
   Thomas P. Marquardt, Michael P. Cannito, and Kyla Sherrard

Modality Differences in the Comprehension of Frequently Occurring Nouns and Celebrity Names by Subjects with Aphasia

Phonologic Priming and Picture Naming in Aphasic and Normal Subjects
   Roberta J. Elman, Roberta L. Klatzky, Nina F. Dronkers, and Robert T. Wertz

Facilitation of Verb Retrieval Skills in Aphasia: A Comparison of Two Approaches
   Ruth B. Fink, Nadine Martin, Myrna F. Schwartz, Eleanor M. Saffron, and Jessica L. Myers

A Specific Treatment for Global Aphasia
   Michael P. Alexander and Felice Loverso

Communicative Effectiveness in Treated Aphasic Adults During the First Post Onset Year
   Jan A. Roberts and Robert T. Wertz

Conversational Repair of Word-finding Difficulty
   Alison Ferguson

VIII. Neurodiagnostic Techniques and Understanding Aphasia

Cortical-evoked Potentials and Aphasia: A Follow-up Case Study
   Marilyn Selinger and Thomas E. Prescott

Attention in Aphasia as Revealed by Event-Related Potentials: A Preliminary Investigation
   Richard K. Peach, Marilyn Newhoff, and Scott S. Rubin

Broca's Aphasia: Comparison to Metabolically Matched Aphasic Subjects
   E. Jeffrey Metter, Wayne R. Hanson, Catherine A. Jackson, Daniel Kempler, and Diana van Lancker

Linguistic Performance of Cardiac Arrest Survivors on a Neuropsychological Screening Test
   Barbara B. Shadden and Audrey L. Holland

Index
