

Second Conference on Clinical Aphasiology

Albuquerque, New Mexico
March 1-3, 1972

PROGRAM*

Wednesday, March 1

Aphasiology Redefined

Bruce E. Porch, VAH Albuquerque

The Brain and Dichotic Speech Perception

Charles I. Berlin, Louisiana State University Medical School

Computer Application in Aphasia Testing

Albert Knox, VAH Kansas City

The Longitudinal Study of Aphasia

Bruce E. Porch, VAH Albuquerque

Predicting Recovery from Aphasia

D. J. Hubbard, VAH Kansas City

Plotting Recovery from Aphasia with PICA Results

Terralynn G. Walters, VAH Kansas City

Profile of Aphasia and Apraxia: Onset through Recovery, A Case Study

Donnell F. Johns and Sara Macaluso, Callier Hearing and Speech Center

The Influence of Illiteracy on Predicting Recovery from Aphasia

Pat A. Holtzapple, VAH New Orleans

Two Psychiatric Patients with Aphasia

Rita Fust, VAH, St. Louis

*Some participants declined to prepare a manuscript for publication in the Proceedings

Thursday, March 2

Current Views on Operant Approaches
Jan Costello, University of California at Santa Barbara

Improvement of Receptive Functioning in Adult Aphasics
Joyce West, VAH New York

The Role of Auditory Functions in Rehabilitation of Aphasic
Individuals
Robert H. Brookshire, VAH Minneapolis

Application of the Symbolic Match-to-Sample Task in Language
Training
Peggy Wilson, George Washington University

Issues Regarding Supplemental Treatment Methods
Discussants: Mary Manning, San Francisco Hearing and
Speech Center
Elizabeth Wallace, Newport Language and
Speech Center
Carol Towne, Rutgers University

Letter-Prediction Responses of Adults with Lateralized
Cerebral Lesions
Charles L. Johnson, VAH Dayton

Effects of Fatigue Produced by Isokinetic Exercise Upon the
Communication Ability of Aphasic Adults
Robert C. Marshall and Philip S. King, VAH Portland

Language Following Left Occipital Lobectomy: A Case Report
Michael G. Johnson, Hennepin County General Hospital

Recovery from Aphasia Resulting from Arteriovenous
Malformation: A Report of Three Cases
Malcolm R McNeil, VAH Denver

Trauma and Surgery
Zoe Zehel, VAH Wilkes-Barre

Post-Surgical Language Dysfunction: A Study in Long-Term
Rehabilitation
Robert H. MacPherson, VAH Asheville

Friday March 3

A Preliminary Report on the Development and Use of the Ges-
tural Recognition Test (GRT)
Robert J. Duffy, Joseph R. Duffy, and Karen Leiter Pearson,
University of Connecticut

Assessment of Gestural and Pantomimic Deficit in Aphasic Patients

Len Pickett, VAH Iron Mountain

Multisensory Stimulation and Oral Form Identification in Brain Injured Adults

Leonard L. LaPointe and William N. Williams, VAH Gainesville and University of Florida

Identification of Apraxia of Speech from PICA Verbal Tests and Selected Oral-Verbal Apraxia Tests

Robert T. Wertz, John C. Rosenbek, and Michael J. Collins, VAH Madison

Treatment of Apraxia of Speech in Adults

John C. Rosenbek and Robert T. Wertz, VAH Madison
