

CONTENTS

<i>Preface</i>	<i>ix</i>
<i>Contributing Authors</i>	<i>xi</i>

I. Analyzing and Interpreting Aphasia Research

1. Group Comparisons Across Neurologic Communication Disorders: Some Methodological Issues <i>Joseph R. Duffy</i> <i>Penelope S. Myers</i>	1
2. Statistical Power in Aphasia Research <i>Nina F. Dronkers</i> <i>Bix E. Swain</i>	15
3. Predictability: Greater Than $p < .05$ <i>Robert T. Wertz</i>	21
4. Technical Drift and Conceptual Myopia: The Merlin Effect <i>Kevin P. Kearns</i> <i>Cynthia K. Thompson</i>	31
5. Analytical and Technical Directions in Applied Aphasia Analysis: The Midas Touch <i>Cynthia K. Thompson</i> <i>Kevin P. Kearns</i>	41

II. Relating Anatomical Structure to Function

6. Left-Hemisphere Lesions: A Comparison of Subjects with and without Aphasia <i>John M. Pettit</i> <i>Joseph R. Duffy</i>	55
7. Brain Glucose Metabolism in Aphasia: A Model of the Interrelationship of Frontal Lobe Regions on Fluency <i>E. Jeffrey Metter</i> <i>Wayne R. Hanson</i> <i>Catherine A. Jackson</i> <i>Daniel Kempler</i> <i>Diana van Lancker</i>	69

III. Reading, Writing, Drawing

8. Reading Comprehension of Directly Stated and Inferred Information in Paragraph-Length Material by Nondemented and Demented Elderly Subjects 77
Donna J. Graville
Marie T. Rau
9. Differences Between Writing with the Dominant and Nondominant Hands by Normal Geriatric Subjects on a Word-Dictation Task 87
Deborah Brauer
Malcolm R. McNeil
Anne M. Herman
Delores K. Vetter
10. Reliability and Classification of Writing and Drawing Performance in Mildly Aphasic Patients and Normal Individuals 95
Roberta J. Elman
Jan A. Roberts
Robert T. Wertz

IV. Aphasia Discourse

11. Effect of Shared and Unshared Listener Knowledge on Narratives of Normal and Aphasic Adults 109
Donna Bottenberg
Margaret L. Lemme
12. Effects of Listener Knowledge on Stories Told by Aphasic and Non-Brain-Damaged Subjects 117
Robin Brenneise-Sarshad
Robert H. Brookshire
Linda E. Nicholas
13. Analysis and Description of Narrative Discourse in Right-Hemisphere-Damaged Adults: A Comparison with Neurologically Normal and Left-Hemisphere-Damaged Aphasic Adults 125
Sr. Deborah Uryase
Robert J. Duffy
Betty Z. Liles
14. Exemplar Verification for Common and Ad Hoc Categories in Aphasia 139
Monica S. Hough
Robert S. Pierce

3650 **V. Testing and Evaluation**

15. Sentence Comprehension and Repetition in
Conduction Aphasia: Results of Parallel Testing **151**
Robert C. Marshall
Sandra I. Neuburger
David S. Phillips
- 3651 16. The Relationships Among Level of Measurement,
Generalization, and Reimbursement **163**
Reg L. Warren
Felice L. Loverso
Joy DePiero

VI. Treating Aphasia

- 3658 17. A Qualitative Analysis of Response Elaboration
Training Effects **171**
Ann Gaddie
Kevin P. Kearns
Katherine Yedor
- 3659 18. The Efficacy of Treatment for Two Globally Aphasic
Adults Using Visual Action Therapy **185**
Caryn P. Conlon
Malcolm R. McNeil
- 3659 19. Replication of a Treatment Protocol for Repetition
Deficit in Conduction Aphasia **197**
Lisa C. Beard
Thomas E. Prescott
- 3660 20. Manual Sign Acquisition and Use in Two
Aphasic Subjects **209**
Carl A. Coelho
- 3661 21. Establishing Functional Communication Board Use
for Nonverbal Aphasic Subjects **219**
Karen J. Bellaire
Jill B. Georges
Cynthia K. Thompson
- 3667 22. Facilitating Functional Conversational Skills in
Aphasia: An Experimental Analysis of a
Generalization Training Procedure **229**
Patrick J. Doyle
Karen S. Oleyar
Howard Goldstein

	23. A Comparison of Computerized Reading Treatment, Computer Stimulation, and No Treatment for Aphasia	243
	<i>Richard C. Katz</i>	
	<i>Robert T. Wertz</i>	
	<i>Susan M. Lewis</i>	
	<i>Cami Esparza</i>	
	<i>Muriel Goldojarb</i>	
2367	24. Effects of Separate Treatments for Distinct Impairments Within the Naming Process	255
	<i>Argye Elizabeth Hillis</i>	
2467	25. Conducting Research in a Clinical Setting Against All Odds: Unusual Treatment of Fluent Aphasia	267
	<i>James G. Schumacher</i>	
	<i>Linda E. Nicholas</i>	
VII. Apraxia of Speech and Supra-Segmentals		
	26. A Comparison of Speech Kinematics among Apraxic, Conduction Aphasic, Ataxic Dysarthric, and Normal Geriatric Speakers	279
2668	<i>Malcolm R. McNeil</i>	
	<i>Scott Adams</i>	
	27. A Perceptual Comparison of Prosodic Features in Apraxia of Speech and Conduction Aphasia	295
	<i>Katherine Odell</i>	
	<i>Malcolm R. McNeil</i>	
	<i>John C. Rosenbek</i>	
	<i>Linda Hunter</i>	
2668	28. Sentential Stress Production by Normal and Left Anterior Lesion Subjects	307
	<i>Karen A. Colson</i>	
	<i>Donald A. Robin</i>	
	<i>Erich S. Luschei</i>	
	<i>Index</i>	319
